URBAN MOBILITY IN BARCELONA: MOVING TOWARDS SUSTAINABLE AND AGE-INCLUSIVE URBAN TRANSITIONS

A RESEARCH SEMINAR

BARCELONA: 8 DE SETEMBRE 2023, 10:00

El Grup de Recerca d'Anàlisi Territorial i Estudis turístics (GRATET) de la URV organitza un seminari de transferència de resultats de recerca a l'entorn de la mobilitat urbana i reptes relacionats al envelliment de la població en ciutats amb alta presència turística. La sessió posarà especial èmfasi en el cas de Barcelona i les polítiques públiques de la ciutat. La jornada es planteja com un espai de trobada entre la comunitat acadèmica i professional on compartir i dialogar sobre els resultats del projecte ENTOURAGE. Aquesta recerca s'ha dedicat a l'estudi d'aquests temes en el marc d'una perspectiva sensible amb l'edat.

Registra't [aquí](#).

URV's Research Group on Territorial Analysis and Tourism Studies (GRATET) is organising a knowledge exchange meeting about the results of different research projects about urban change, mobility and population ageing in cities with a high tourist presence. The meeting is dedicated to the case of Barcelona, and will offer a space for the academic, policy and professional community to share, debate and discuss the results of the ENTOURAGE project, which is dedicated to the study of these topics from the an age-friendly perspective. Click [here](#) to register.

This project receives funding from the EU's H2020 research and innovation programme under Marie Skłodowska-Curie grant no. 101032961

8 sep tem ber 2023
